

Vintage Jewel Art by Jenny Junior

Catalogue Autumn 2026

The Story of Creating Unique Art from Vintage Jewels and Semi-Precious Stones

Jenny Junior is an interior designer and commercial artist. Jenny founded her design studio, Jenny Junior Interiors, over 20 years ago and has built one of the leading, independent, interior design businesses in Hertfordshire.

With a passion for vintage jewellery, Jenny began working with the reflective beauty of semi-precious stones, pearls, glass and goldwork, to create dream-like images from nature and the natural world.

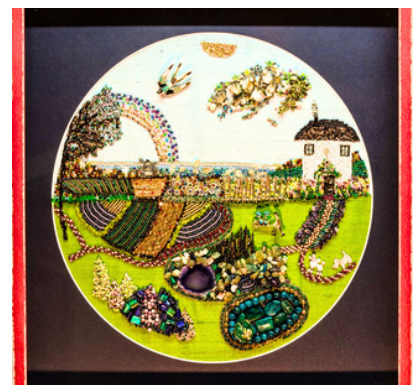

Every jewel, stone and bead is hand-stitched onto a silk canvas, over hundreds of hours, to create unique pictures which glisten in the light.

Each piece is constituted from multiple, semi-precious materials, including real pearls, abalone shell, malachite, blue quartz, agate, amethyst, onyx and silver or gold thread needlework.

The collection comprises scenes from oceans, landscapes and from dreams, myths and magic.

In addition to her own commercially available art, Jenny takes commissions from her interior design clients and from the general public.

Jenny comments: "if you possess cherished pieces of vintage or costume jewellery and would like to preserve them in a unique way, I can work with you to create something truly unique to display in your home".

Jenny Junior
